وصف:

Albania Kosovo, Large-scale renewable energy project in Albania and Kosovo with 105 MW photovoltaic and 99.5 MW battery storage for sale

This large-scale renewable energy project includes the installation of 105 MW of photovoltaic systems to generate electricity and 99.5 MW of battery storage to efficiently store the generated energy and ensure a continuous supply. The combination of these two technologies ensures a sustainable and stable energy supply, both in Albania and Kosovo.

Two attractive pricing options offer investors flexibility:

Ready to Build (RTB): The project is ready for immediate implementation, all permits have been granted and the land has been developed.
