Beschreibung:

This new 26 villas development in MIjas will start construction in autumn 2017 situated on various plots from 500 - 900 m2 with different designs. All will be modern boasting open spaces with a contemporary feel ranging from 264 - 393 m2 depending on the model and plot. The project is designed to combine a sleek architectural language with a peaceful natural setting surrounded by pine trees and the beautiful mountain of MIjas. One of the most notable design features of the villas is the use of large windows to maximize light and space. In the open plan living area the windows are full height, from floor to ceiling. Our selection of magnificent villas offers a contemporary design using eco-friendly, sustainable and high quality materials. This combination of design and technology allows building stylish villas with high levels of energy efficiency. We have different models that can be customized for each client.
