Beschreibung:

Ready for move-in by Q4 2024, this condo is a modern, futuristic development situated on Thonglor Road, one of Bangkok's most desirable residential areas. The project is 1.8 kilometers from the Thonglor BTS Skytrain Station, on Sukhumvit Road, and is located near the upcoming Grey Line station, expected to open by 2030.

40-floor single tower offering 203 freehold condominium units, covering 1-3-88.9 Rai (approximately 2,000 sq.m). Residents benefit from 100% car parking, with both conventional and automated parking options available, allocated on a first-come, first-served basis.

Developed by Real Asset, a well-established company with successful projects across Bangkok, the condo continues their tradition of excellence. The company first ventured into high-rise development with The Stage Taopoon Interchange in 2015, which won the Thailand Property Award for Best Affordable Condo Development in 2016. Real Asset also developed the luxury Laviq Sukhumvit 57 in 2016, located near Thonglor BTS.

This condo has garnered attention from both buyers and investors, drawn by Thonglor's reputation as a preferred area for affluent Thai families and Japanese expatriates.
