#### Descripción:

Originally built by Charles Church, this sought-after development does not often have properties coming to the market.

Upon entering this impressive townhouse, no expense has been spared to create the perfect space to raise a family. When walking through this home, a solid Oak floor leads you through the property and into an impressive kitchen/family room. This space has been designed and built with both style and practicality in mind, with a large island and plenty of storage it really is the heart of the home. The current owners of this property really have thought about everything in this superb space and have even incorporated a bottle cooler, ideal for chilling your most loved bottle of wine in preparation for a tippie after a long day.

On the first floor, a large living room spans across the front of the house and is flooded with light from two large windows creating a fantastic space for the whole family to cosy up and watch a movie, or have the family over for a special occasion. Also located on this floor is a large double bedroom benefiting from built-in wardrobes and an en-suite.

On the second floor, another generously proportioned bedroom with an en-suite can be found. There is also a further two double bedrooms and a family bathroom. There will be no arguing about room size in this spacious family home!

To the rear, a beautifully landscaped garden and patio area create the perfect space to enjoy the sunshine. The seamless transition from indoors to outdoors makes entertaining effortless and will be an asset to any family.

The vendor loves: This fantastic home has so much space and has been modernised to suit family life.

We love: A spacious and extremely well-done family home, situated in the heart of the West End.
