ABOUT THE AREA

Pinheiros is a district in the subprefecture of the same name in the city of São Paulo, Brazil. Prior to development, the land which this borough occupies was dominated by the dense forest which contained a Brazilian subtropical species of pine, *Araucaria angustifolia*, which is also the symbol of the Paraná state.

Pinheiros is one of the coolest neighborhoods in São Paulo. In this hipster area, you'll find trendy art galleries, vibrant bars, and great restaurants. Pinheiros combines all the convenience of a residential area with the buzzing nightlife of a student quarter. Discover the best attractions and trendiest spots in this ultimate guide about Pinheiros, a top choice place to live and go out in São Paulo.

Historians consider Pinheiros to be the first neighborhood developed in São Paulo due to its strategic location beside the Pinheiros river. In fact, the name 'Pinheiros' is a reference to a type of pine tree very common in the region. Studies had shown that Largo da Batata was the place where the first indigenous tribes settled in the 16th-century. The name 'Batata' – which means 'potato' – had appeared many centuries later as a reference to the Japanese immigrants that used to sell potatoes in the Pinheiros Farmers Market.

Nowadays, Pinheiros is one of the most sophisticated neighborhoods of São Paulo and it benefits from a variety of services and leisure activities. Some of its most important roads include Marginal Pinheiros, Brigadeiro Faria Lima, and Rebouças Avenue.
