On the first level (91 sq.m.), there is an open-plan space consisting of a living room, dining area, and kitchen, along with a WC and a spacious bedroom with an en-suite bathroom.

The unified living area seamlessly connects to a large veranda through a generous opening, creating a spacious covered area that combines the two spaces.

The internal staircase leads to the upper level (70 sq.m.), with two bedrooms, each with its own en-suite bathroom and an office space.

The property includes 1 parking space with EV charger and a storage room on the basement level.

The duplex is part of a five-story modern building of high architectural aesthetics, built to high specifications and classified as energy class A+ (underfloor heating, use of heat pumps, net metering, provision for electric vehicles at the basement level, etc.).
