Small but nice house in a quiet village.

This house is located in Basal a small village in the south and a bit of a special house because of the construction. Built of very light

material which is covered with 5 cm insulation. Roof was renewed in 2022.

The house offers you the living room / kitchen, 3 bedrooms, the bathroom and a separate toilet.

The plot is 1,773 m² and in the garden some reasonably good outbuildings.

Electricity, gas and water are available. For drainage there is a connection to a septic tank with the comment that this actually needs to be renewed. The house is centrally heated with a gas stove.

Connecting the telephone and / or Internet is no problem.

Basal is a village 10 minutes north of Szigetvár and that is where you go to do your shopping. There is much more to do in Szigetvár. Small provincial town with a beautiful (thermal) swimming pool, sports facilities, schools, hospital and all major retail chains. Also enough opportunities to have a drink on a terrace or go to a restaurant.

The city of Pécs is 45 minutes away and for golf enthusiasts it is good to know that the international course of Hencse is 20 (car) minutes away.

Beautiful area with plenty to do.

Nice house at just 10 minutes from Szigetvár.
