How to Find Office Space with Parking in Malta

Finding office space with parking in Malta can be challenging particularly in high demand areas like Sliema St. Julians or Valletta where parking is limited and often expensive. However businesses can streamline their search by working with specialized real estate agencies that focus on commercial properties. These agencies often have access to off market listings and insider knowledge.

Large office complexes and business parks such as those in Mriehel or Birkirkara tend to offer ample parking as these developments are designed with larger capacities in mind. If your business needs parking focusing on these areas could prove beneficial. Suburban locations like Mosta and Birkirkara are also viable alternatives to more central congested areas providing both parking and office space at competitive rates.

While some office spaces may not come with dedicated parking many landlords have arrangements with nearby parking garages or lots and it s worth inquiring about these options. In some cases you may also be able to negotiate for parking spaces if they are not initially included in the lease.

Online listings on platforms like Office Market and can be valuable resources for checking availability and setting up alerts will help you stay on top of new opportunities.
