This exclusive property is in very good condition, with the spacious rooms capturing the light and creating a welcoming atmosphere. The villa was built in 1970 and underwent a comprehensive renovation in 2022. As a result, it skillfully combines traditional charm with state-of-the-art amenities and standards, guaranteeing an incomparable living experience. Upon entering this residential property, you will be immediately impressed by the half of the house for sale. With radiantly bright rooms and a welcoming atmosphere, it adds a touch of elegance to its sophisticated architecture. A particularly attractive aspect of this offer is the option to also purchase the apartment on the floor below. This allows you to purchase the entire villa and create the home of your dreams. A unique opportunity not to be missed if you value a little privacy and exclusivity. But that's not all: the semi-detached house is sold furnished, so you don't have to worry about the furnishings. In addition, this property is certified with energy class A4, which means that it has a high level of energy efficiency. Thanks to a state-of-the-art photovoltaic system, the house produces some of its own electricity, which both protects the environment and reduces your energy costs.
