House to rebuild under construction.

Three fronts and small patio.

It has an implantation area of 45.00 m² consisting of two floors, thus having a total of 92 gross m² of construction.

The ground floor will have an open-plan living room and kitchen, a guest toilet and an outdoor patio.

The upper floor consists of two or three bedrooms with built-in wardrobes, full bathroom, as well as a small balcony.

With a principle of quality construction, in order to ensure the interior comfort and exterior beauty of the villa, it makes this property a good option to buy for own housing, or investment for the rental market.

It has the possibility of making two apartments T1 (on the ground floor) and T2 (upper floor) due to having independent entrances.

Located in the parish of Bodiosa, more specifically in Queirela de Bodiosa, it has easy access to Viseu and other locations in the region.

The region is home to several museums and churches where hospitality is a strong hallmark of the district.

Viseu has a mild climate, however the climate is characterized by hot summers and humid winters.

Thanks to the low cost of living, safety, education, sports and leisure, this city is one of the best places to live in Portugal!
