Why Invest in a Hotel in Barbados

STABLE GOVERNANCE

As the third oldest Parliament in the British Commonwealth, Barbados has an enviable record for the management of its political, social and economic affairs. Once known as 'Little England', Barbados' political system has withstood the test of time and earned it the #1 position by Transparency

International's freedom from corruption index in the Caribbean and Latin America. Barbados has undergone several changes in its political administration without incident and successive administrations have exhibited prudence in the management of its economy, contributing to the overall stability of the island nation.

VIBRANT ECONOMY

Since its independence from the United Kingdom in 1966, this English speaking nation has developed a robust economy with a GDP of USD \$4.3 billion, which is the 4th highest in the Eastern Caribbean. In the post-independence period, the Barbados economy has evolved from an agrarian economy to a service-based one led by tourism and international business. The island's banking system has the distinction as being recognized as the 4th most stable in the Western Hemisphere by the World Economic Forum's Global Competitiveness Report 2014-2015.

AVIATION HUB

Barbados' location as the most easterly Caribbean island makes it a natural hub for both passenger and cargo traffic from the United Kingdom, North America and Europe. The Grantley Adams International Airport manages 2.4 million passengers annually and is rated in the top 10 for the availability of flights per capita and is also world-rated for the quality of its airport infrastructure.
