Omschrijving:

This beautiful and bright apartment is sold in Mamariga and is located on a pedestrian street where you can enter with the car or van to load or unload without any burden.

It consists of three bedrooms, living room, kitchen and bathroom with natural gas in the window. From two of the rooms we can see between the buildings and above the adjacent roofs part of the estuary and the right bank. An armored door in the entrance that gives us access to a large hall where we have a large hall as a shoe rack and a large mirror to give us the final touch before leaving for our daily chores. Followed by the hall a nice corridor that distributes all the rooms of the house without losing or wasting a single centimeter, on the right the bathroom with its bathtub, toilet and sink; It is not very big, but with enough space to unwind well, followed by the bathroom, the large and very spacious kitchen, it is the oldest part of the house but it has a fantastic window that gives us a lot of clarity and luminosity, it is now complete with its furniture and appliances. The first room with a cute white bedroom that stands out in contrast to the color of the wall and also a large window through which the sun and clarity enter in abundance.

Next, the room with its solid door and stained glass is also decorated in white tones with a coquettish sofa in two tones, predominantly white, which invites you to sit and relax in it, and in front of the sofa a large cupboard with a display case to exhibit our peculiarities, and of course, in the center of the room a nice

rectangular table of good size, predominantly white on a red carpet of hair, which makes the whole set very well combined. In the room we have the exit to a balcony balcony to enjoy moments of relaxation, to relax, to sunbathe or the cool of the summer nights, for oneself or to share drinking with family or friends, returning by hand left and followed by the living room the second bedroom with a wardrobe and a window blind, from here you can see a bit of the sea and part of the right bank.

Finishing, the third bedroom is also very cute with its white furniture perfectly contrasting with the tone of the wall. This room has a full bedroom composed of a bed, matching its bedside tables, a wardrobe, its small joker and its window, which, raising its blindness, lets us see the Ria and areas of Getxo. In the window of this room is the clothesline with its blue awning.

In short, a nice floor with its solid white lacquered doors, the wooden floor, totally exterior with views, cabin on the floor to have everything in place, natural gas in the window. With the possibility of an elevator.
