Omschrijving:	

Many people know the Sciliar massif as the most striking mountain range in the Dolomites, while others are familiar with the imposing mountain thanks to the packaging of world-famous wafers. It is undisputed that there is no other place where the Schlern shines as beautifully as on the sunny Rittner high plateau. We are therefore particularly pleased that the four new-build apartments we are offering for sale have a fantastic view of the Sciliar.

In Unterinn, a small fraction of the municipality of Ritten, there are two 2-room apartments and just as many 3-room apartments for sale in a brand new building built to a high standard. These not only offer very spacious and, thanks to the large windows, extremely bright living spaces, but also generous terraces and garden areas. Privacy is just as important here as unique living comfort, as no expense or effort was spared when building the apartments to KlimaHaus Standard A Nature in order to provide the future owners with a unique product: the underfloor heating and cooling, the frameless, triple-glazed windows, the photovoltaic system on the roof and the high-quality materials used throughout for the interior fittings are just some of the features that speak for these apartments. Each apartment has a large cellar and a parking space in the garage. Outdoor parking spaces can be purchased separately. The properties can also be purchased as vacation apartments.

Would you like to live in a panoramic location in the countryside just a few minutes from Bolzano? Then Unterinn is the right place for you!

Nieuw:	Ja
