Learn more about the Parthenon Neighborhood:

The Parthenon is a large neighborhood in the eastern region of Porto Alegre. A place of a lot of history, tranquility and simplicity. The neighborhood has several options for residential properties with excellent value for money.

For those who want to rent, this neighborhood is a great option for families and university students. Its privileged location allows easy access to other areas of the city, either by car or bus.

For those who want to invest in the purchase of real estate, the region is well valued, with great opportunities, especially in the region closest to the PUC campus.

The origin of the name, however, comes from other times. In the mid-nineteenth century, a group of intellectuals used to meet in this region. Known by the nickname of the Parthenon Literary Society, they spread education through literacy among the population, with about 300 registered members. They believed that education has always been the key to the development of society.

The name Parthenon Literary was in honor of one of the most important temples, dedicated to Athena, the Greek goddess of wisdom. What used to name the headquarters, also started to name the region, such was the importance and influence of the group in the local culture.
