Omschrijving:

Jardim de Matosinhos, Gated Community, is the most recent real estate proposal in Matosinhos, and has an exceptional location, next to the Basilio Teles Park and the Municipality of Matosinhos, close to the Metro line.

It presents an architectural concept that combines the preservation of the features of a manor house with a modern and contemporary residential building, proposing 11 fractions, of typologies T1 and T2, with large outdoor areas.

This project is assumed to be a reference housing complex in Greater Porto, whose particularity will be to adjust to the expectations and needs of those looking for a functional lifestyle and location.

All apartments have functional models, a superior quality of construction and level of finishes, with useful areas ranging from 73.00 m² to 128.00 m², balcony and parking.
Given the location, it is also an excellent option for real estate investment.
