Property Details

Description This is a beautiful apartment of 175 square meters. It is a penthouse apartment that occupies the top two floors of a centuries-old building which has been completely restored. It is located on the third floor of the building, in the main square of Tavernelle di Panicale. Lake Trasimeno and the

Renaissance city of Città della Pieve are only 15 minutes away, while the main cities of Assisi and Perugia can be reached in half an hour.

Perugia airport is 30 minutes from the apartment. The apartment has been elegantly renovated by the current owners and enjoys an enviable location in the heart of the historic center with restaurants, cafes and shops, chemists and other services nearby.

There is public parking nearby and access to the street. The apartment is configured as follows: A very large living/dining room extends almost the entire length of the building, opening at the end into a separate studio. The fully equipped kitchen is spacious enough for large family dining. On the other side of the entrance hall are two large bedrooms separated by a large beautifully tiled bathroom and a second smaller bathroom.

Many old features have been preserved and restored: ancient wooden beams cross the ceilings, a wood-burning fireplace is a focal point in the living area, and refined individual floral designs have been painted on each of the doors. An internal staircase leads to the upper floor of the apartment, which is located under the slope of the roof. Here, there are two large additional rooms which could be used for a variety of purposes.

There is also storage space around the entire roof. These rooms are illuminated by huge skylights and open onto a covered terrace with panoramic views of the surrounding countryside. All utilities are connected, and the heating is autonomous and has been regularly serviced. There are no condominium fees. This apartment is a real bargain as the owners are looking to move to another part of Italy for work reasons. They are also prepared to sell fully furnished, subject to negotiation. Energy classification: G

About the Area

Perugia is an Italian city and the capital of the Umbria region. It's known for its defensive walls around the historic center. The medieval Priori Palace exhibits regional art from the 13th century onward. Looking onto Piazza IV Novembre, the Gothic cathedral houses Renaissance paintings and frescoes. In the square's center, Fontana Maggiore is a marble fountain with carvings of biblical scenes and zodiac signs.
