### Description:

\*\*\* Only 28 Amazingly Large 3 & 4 bedroom Apartments on the Frontline of the Mediterranean Sea \*\*\*  
 Outdoor Heated Infinity Pool \*\*\* 24-Hours Security \*\*\* If You are Looking for Something Special, This is for You \*\*\* Ready in September 2019 \*\*\*  
 On the front line of the Mediterranean Sea, a new idea of residential complex has been conceived, where each of the privileged families who live in the complex will enjoy a new concept of apartment, with the feeling of living in a villa. Counting with amazing windows and enormous terraces, each of the buildings that compound the complex is frontal to the beach, making possible the enjoyment of endless views of the Mediterranean Sea. On an almost 20.000 m2 front line beach plot of land, this is a High Security Gated Complex of just 6 small blocks, comprising only 28 amazingly large 3 & 4 bedroom residences and exclusive access to the beach. Each of the apartments includes a minimum of 3 large parking spaces, with direct access into a private “basement-storage”, directly connected with each of the homes through a private elevator. The modern design of the gardens conserves a Mediterranean essence. Most of these gardens are spread between the complex and the sea, where a new concept of swimming pool merges with the nature. Swimming all year round on a front line beach position will be possible thanks to its large outdoor heated pool, which integrates to a solarium and it is run by salt chlorination system. The infinity side of the pool gives the final touch, allowing an amazing visual integration of both waters, of the pool and the sea. The design of the construction together with the most advanced technologies, as well as the innovative materials used, have given way to the breath-taking Smart Apartments. The total built sizes of the 3 bedroom apartments go from 405 m2 up to

431 m2, and the 4 bedroom ones from 548 m2 up to 813 m2. Contact us today for more information or to arrange a visit.
