Country: Thailand
Address: Phunnawithee
Posted: Apr 14, 2025
Description:
Whizdom101

THE PROJECT

This new project is in the first urban mixed-used neighborhood with the latest in technology and innovation, to create a holistic offering that connects people to one another, while enabling them to live their potential, in green oases that relaxes and refreshes.

LOCATION

Easily accessible via the BTS Skytrain, the project is located on the outer fringes of the city center, and connects to all the main roads and expressways to get from destination to destination quickly and easily.

GREAT GOOD LIVING

The centerpiece is vertical living a€ three high rise condominiums - that bring importance to modern quality living. Space is vast for a small living area. Seventeen rai of land is for the project, with 30% of the land dedicated to green spaces and the other 35% left open. Jogging tracks and bicycle lanes promise space to live well. There is a 30-year warranty with preventative care services which will ease worries.

Built with sustainable innovation in mind, the condominiums utilize energy-saving technologies, non-toxic building materials, premium in-unit ventilation, and tech-forward conveniences such as one-touch Home Automation Systems. These systems combine controls for light switches, air conditioning, and other home appliances. Available in a handy application format (accessible on mobile phones and computers) while also providing residents with the latest information on occurrences within the project, along with the opportunity to share and exchange news with one another.

THE GREAT GOOD PLACE

Working spaces, living spaces, social spaces, and community spaces a€' all are brought together in the one place, to make life easier, as time is precious and one of our biggest assets. Conveniences like those found in this project make it the place to live.
